

630a Explosion-proof Distribution Box

Overview

The Larson Electronics EPPB-TWI-MOD1 Explosion Proof Power Distribution Box is designed for safe disconnection of power in combustible work sites. Equipped with an isolator switch, the unit is rated 400V AC three phase 50 Hz (630 amps max). High quality AC220/380V 630A Explosion Proof Power Distribution Box Control Box for Oil/Gas Industry from China, China's leading product market explosion proof power distribution box product, with strict quality control 630A control box for oil gas industry factories, producing high quality AC220V. Supplier highlights: This supplier mainly exports to the United States, Australia, and Thailand, offering full customization, design customization, and sample customization services. They excel in quality control and hold product certifications. The positive review rate is 96. The IP66-rated enclosure is constructed of copper-free. Professional Complete Set of Power Distribution Cabinet Customization and Engineering Supporting Services We are deeply engaged in the industrial electrical field, focusing on the core business of customizing complete sets of power distribution cabinets. We provide new factory supporting services. The Grande distribution cabinet is our largest solid rubber portable cabinet and has been specially designed by us for large-scale (construction) projects with high power outputs and maximum requirements for safety, capacity, and flexibility. Built with steel or stainless steel, it offers customizable circuit configurations using explosion-proof components. Supports up to 630A main circuit current. Ideal for oil & gas, chemical, and marine.
