

Access Switch 24-Hour Electricity Quotation

Overview

Here's where you'll learn how to sign up, estimate your usage, and what to keep in mind for the 24h supplier switch starting June 6, 2025. Switching electricity providers will be radically simplified from June 6, 2025: customers will be able to switch their electricity contract within 24 hours – instead of waiting several days or even weeks as before. But what does this mean in practice?

What opportunities does it present – and what. The European Commission has launched a 4-week public call for feedback on a draft set of technical rules designed to make switching electricity suppliers faster, simpler, and more transparent across the EU. The draft rules introduce a common EU “reference model” for the interoperable and smooth. Starting June 6, 2025, Germany will implement a new rule that allows consumers to switch electricity providers within 24 hours. This update is part of a broader EU-wide reform aimed at making energy markets more competitive and consumer-friendly. The rule implements § 20a Abs.
