

Assembly of electrical distribution boxes at a construction site in Senegal

Overview

VINCI Energies and Senelec have signed a €200 million contract to build an array of electricity transmission and distribution infrastructure. French authorities will contribute to the project's financing. The works will last three years and employ a total of more than 1,000. ENERGYBOX is a complete range of Assemblies for Construction Sites (ACS) pre-wired boards that can be wall-mounted or installed on a support. The panels are made in a sturdy and handy two-component technopolymer cabinet with a fire-resistant backrest, which allows them to be stored and reused in. BOSECKER construction site power distributors are designed and manufactured in accordance with the manufacturer standard IEC 61439 and user standard IEC 60364. The robust sheet steel housing has been. BLOCK Series distribution assemblies are made of thermoplastic material. The distribution box (DB box) helps safely and efficiently distribute electrical power. They involve. A subsidiary of French construction giant Vinci and Senegal's national electricity company Senelec have agreed a €200 million (US\$219).
