

Australian optical cable 6 cores

Overview

The OptiCore™ 6-Core OM4 Pre-Terminated Fibre Cable gives Australian networks a fast, reliable and high-performance way to upgrade without the delays of field termination. It arrives fully tested and ready to install, which means you can deploy it quickly and keep your project. 4Cablings Loose Tube fibre is designed to be used when the required cable is either direct buried or installed within an underground conduit. This type of fibre is designed to withstand most outdoor conditions including moisture ingress, thermal shock, lightning, wind abrasion, and ice loading. AFL's portfolio of fibre optic cable products is unmatched. This OM4. 6 Multimode OM3 optical fibres contained in an axial, jelly filled loose tube, strengthened with flexible non-metallic armour bonded to the inner polyethylene sheath, with an insect-resistant nylon jacket. Surface printing includes length marking at 1 metre intervals.
