

Black Box Fiber Optic KVM

Overview

The KVX HDMI/DisplayPort Dual Head KVM Extender lets you control a server or computer over over singlemode fiber at distances of up to 30 km (depending on the SFP used, fiber type, and fiber bandwidth). This extender also supports 4K video. Engineered for challenging and professional workspaces, it. Fiber Optic Extension: The Black Box KVM Extender Kit leverages fiber optic technology to transmit high-definition 4K HDMI video, USB 2.0 signals, serial data, audio, and local console (LOC) connections over extended distances. Fiber optics ensure signal integrity and quality over long-range. High-performance KVM Emerald SE provides users with a seamless desktop experience anywhere on a TCP/IP network while allowing the actual hardware to be housed in a corporate data center or in the cloud.
