

D51 optical module

Overview

The A13-Z101-D51-AS-S from Optical Zonu is a RF Over Fiber Module with Frequency Range 30 MHz to 3 GHz, Optical Wavelengths 1510 nm, Optical Output Power 3.44 dBm, IP3 25 to 28 dBm, RF Gain -1 to 2 dB. Support for Ethernet/OTN clients, and line-side transmission of 100Gbps QPSK modulation up to 400Gbps 16QAM Supports an expansive list of interoperability modes including OpenROADM MSA, CableLabs, and the Optical Internetworking Forum (OIF) Supports DCI, access aggregation, wireless 5G backhaul. Image shown is a representation only. Exact specifications should be obtained from the product data sheet. Pricing and Availability on millions of electronic components from Digi-Key. Acacia Ac200-CFP2-D51-021 100G/200G cfp2-dco pluggable coherent optical module interconnection. The module is designed to follow the carrier-centric OpenROADM MSA and the 100G standard in CableLabs. How to buy electronic. We offer the highest quality, most economically priced static shield packaging available. The extremely durable buried metal construction gives FaradayCage performance needed.
