

Dimensions of a Nine-Position Distribution Box

Overview

✓ The nine-box grid is a 3x3 matrix that plots employees based on two dimensions: current performance (low, moderate, high) and future potential (low, moderate, high). The 9-Box Performance Grid is a tool that helps companies evaluate their employees and which Position and Career path best suits them. It is based on 2 variables: Potential. In this. In the early 1970s, McKinsey & Company introduced the 9-box grid framework to help business leaders prioritize investments within a corporate portfolio. What was once a strategic tool for investments has now evolved into a widely used HR tool for measuring and assessing employee performance and. The 9-box grid plots employees on two axes, performance and potential, into nine cells that show who is ready for more, who needs support, and where your future leaders sit today.
