

Dual-port information panel dual data

Overview

This dual-port panel is compatible with standard keystone modules including Cat5e, Cat6, and Cat6a. Designed to fit standard 86-type electrical wall boxes, it allows easy installation and ensures organized, professional-grade network cable termination for Ethernet, voice, or. The PanelView™ Plus 7 Standard terminals are operator ControlLogix® 5570 and CompactLogix™ 5370 controllers a view into the operating state of a machine or process. Windows CE operating system with desktop access for configuration and third-party applications. Ethernet communication that supports. Amphenol's 17H dual port connectors are a state of the art design. The front metal shell helps reduce EMI / RFI emissions. Zhaolong Dual-Port Information Panel ZW862KJ 86 Type in gold is a premium wall-mounted network faceplate designed to support two keystone jacks for structured cabling applications. This condensed footprint solution is available in 4 industry sizes, 3 connector spacing options & 6 different hardware configurations for the most comprehensive stacked d-sub. Leviton single-gang and dual-gang wallplates accept QUICKPORT snap-in modules to support multimedia station applications with 1, 2, 3, 4, 6, 8, and 12 ports. Use where port designation windows in a single-gang or dual-gang economical flush-mount housing is desired. Available in five colors: white. The panel is designed with rounded corners, and the optical fiber adapter and panel are installed at 45 degrees.
