

# Electrical Distribution Box Assembly Direction

## Overview

**Wiring Direction:** Wiring between the main circuit breaker and each branch circuit breaker in the box generally goes on the left, and the wiring out of the distribution box generally goes on the right. **Binding Requirements:** The wires should be bound with plastic ties. **Comply with standards:** Follow NEC, IEC, or local codes. Use UL/CE-certified parts and record installation details for future inspections. Schedule regular maintenance and inspections to ensure long-term reliability. We focus on workflow efficiency, assembly er. more. Whether you are an electrical contractor or a construction brigade, knowing how to properly and safely install distribution boxes is the basis of ensuring the safe operation of the entire system. For any damage due to one of the following situations, a paid repair duct, please dispose the pro type, a “R” is added after the Specification.
