

Future Growth of AI Servers

Overview

The AI Server industry is projected to grow from 31.46% during the forecast period 2025 - 2035. AI Server Market Size, Share and Trends Analysis Report By Processor Type (GPUs, CPUs, FPGAs, ASICs), By Form Factor (Rack-Mounted Servers, Blade Servers, Tower Servers, Microservers), By Deployment Model (On-Premises, Cloud, Hybrid), Memory Capacity (Up to 512GB, Up to 1TB, Up to 2TB, Over 2TB). Dell, HPE, Lenovo, and Supermicro are riding record AI server demand, but winning enterprise customers requires more than just Nvidia chips. With GPUs standardized around Nvidia, vendors compete on AI Ops, liquid cooling, and deployment services as enterprises ramp up inference in 2026. Image: The AI Server Market represents a critical backbone of modern artificial intelligence infrastructure, enabling high-performance computing required for data-intensive AI workloads. 89 Billion by 2035 with a CAGR of 27. I need the full data tables, segment breakdown, and competitive landscape for detailed regional analysis and. Driven by the explosive adoption of generative AI and large language models (LLMs), coupled with massive capital expenditures from hyperscale cloud providers and enterprises, this specialized segment of the server industry is projected to expand dramatically in the coming years, becoming a. A comprehensive report by Global Market Insights Inc.

The seven newsletters previously sent by Channel Futures have been consolidated into a single daily newsletter, now available at Channel Dive. We

Memory market surges beyond expectations: almost \$200 billion in 2025 ...

AI and HBM reshape the memory market landscape In this dynamic context, HBM continues to outperform the broader DRAM

See Generative AI's Impact on the AI Server Market to 2025

Global shipments of AI servers are projected to increase at a CAGR of 27.2% during 2022-2027. By 2027, AI servers are forecasted to account for around 19% of the total annual server shipments.

Inside Amazon's "Titus" Push to Future-Proof AI Data Centers

Amazon plans \$200 billion in capex this year. A chunk of that is being spent on AI data centers. Titus is a plan to "future proof" these facilities.

AI Server Market Size & Share, Statistics Report 2025

The AI server market was valued at USD 128 billion in 2024 and is expected to grow at a CAGR of 28.2% between 2025 and 2034, driven by the explosive enterprise

Data centres will use twice as much energy by 2030 —

CC BY 4.0 The projections focus mostly on data centres in general, which also run computing tasks other than AI — although the agency estimated

NVIDIA and Nokia to pioneer the AI platform for 6G —

Collaboration enables new AI services and improved consumer experiences to support explosive growth in mobile AI traffic. Dell Technologies provides

AI-Driven Growth: The Future of Compute Servers

Discover the future of compute servers in our latest report, exploring AI-driven growth and the rise of accelerated servers. Gain insights into market

AI drives server market growth to \$270b by 2028 | TechInsights

TechInsights predicts the server market will reach \$273b by 2028, growing at a CAGR of 18%. Unlike recent years where server demand has been cyclical in nature and effected by the ebb

The Unprecedented Surge: AI Server Market Explodes, Reshaping

The unprecedented growth in the AI server market marks a defining moment in AI history. What began as a research endeavor now demands an industrial-scale infrastructure, transforming AI

Global AI Server Shipments Forecast to Grow Over 28

North American CSPs' continued investments in AI infrastructure are expected to increase global AI server shipments by more than 28% YoY in 2026,

AI has an environmental problem. Here's what the world

The sprawling data centres that house AI servers churn out toxic electronic waste and are voracious consumers of electricity, which in most places

AI Servers Market Size, Share & Trend 2035

Market Size and Growth: The global ai servers market growth, starting at USD 50.05 Billion in 2026 and projected to reach USD 558.89 Billion by 2035 with a CAGR of 27.6% from 2026

AI Server Market Update: Vendors Shift from Silicon to Services

AI Server Market Update: Vendors Shift from Silicon to Services Dell, HPE, Lenovo, and Supermicro are riding record AI server demand, but winning enterprise customers requires more

AI Server Market Size to Reach USD 352.28 Billion by

The increased demand for AI applications, improvements in the technology of AI, the evolution of cloud and edge computing, and big data

AI Server Market Size, Share, Growth Report, 2034

Growing demand for scalable and energy-efficient computing environments continues to shape the AI Server Market Outlook, positioning AI servers as a foundational element of digital

MIT Technology Review

MIT Technology Review's authoritative overview of the 10 technologies, emerging trends, bold ideas, and powerful movements in AI in 2026.

Yole Group

Yole Group - Access daily business, market & technology updates in the semiconductor industry, our Analysts' Analysis and Presentations and more

NVIDIA 800 VDC Architecture Will Power the Next

The exponential growth of AI workloads is increasing data center power demands. Traditional 54 V in-rack power distribution, designed for kilowatt

Basket of 20 European stocks I like right now (and probably still will ...

\$IFX (Infineon) - their power management semis & analog chips are in every AI server, EV and industrial robot. Their AI power segment forecasted to grow >25% annually through 2030.

NVIDIA and Nokia to Pioneer the AI Platform for 6G

Future-Proofed for 6G Nokia and NVIDIA's AI-RAN platform unifies AI and radio access workloads on a software-defined, accelerated infrastructure,

Why liquid cooling will dominate AI data centres in 2026

As AI power demands surge into 2026, liquid cooling is becoming the essential technology keeping data centres efficient, stable, and future-ready.

Memory market surges beyond expectations:

AI and HBM reshape the memory market landscape In this dynamic context, HBM continues to outperform the broader DRAM

AI Server Market Size, Share, Global Trends Report

The AI Server Market is projected to grow significantly over the next decade, driven by the increasing adoption of artificial intelligence (AI) across
