The ABB MNS® low voltage distribution board and power cabinet are a new set of modular and multipurpose low-voltage products. As a member of the ABB MNS family, this particular product is widely used in the lower-level power distribution facilities with MNS® low-voltage switchgear in the following. Distribution Boards are the heart of every electrical system, responsible for safely dividing and distributing power across circuits. A well-designed distribution board ensures reliable power supply, protects equipment, and enhances safety for both industrial and commercial facilities.
