

# Home Smart Distribution Box Contactor

## Overview

remote / locally control 16 channel AC220V 1 phase power output by mobile phone and PC application. support connect with analog DC 0-5v sensors and digital sensors and DS18B20 temperature sensors. input sensors trigger output automatic by. The box gets power from the utility company. Then, it splits the power into smaller circuits. This setup helps keep your house safe and lets you control electricity better. Your home distribution box should do more than just split. To control an electric heater and ensure correct regulation, an SSR (Solid State Relay) gives greater freedom with regard to the switch-on/switch-off frequency, or even a pwm regulation, for the heating resistor only. If a mechanical relay is used, you need to be careful about the speed at which. 24CH smart distribution box made by KC868-H32B Pro + KC868-AK + AC Contactor + MCB diagram: <https://www>. Learn more KC868-A8S esp32 board based on ESP32 wifi chip, many hardware resource for you to use. Modular contactors. Rated current,leakage action value can be set, timing 4. What's your delivery time ?

The.
