

How is an optical distribution box represented in CAD

Overview

This AutoCAD DWG file shows a detailed layout for a fiber distribution terminal. It covers cable management, component positioning, and network planning, providing a clear guide for engineers and designers to implement organized and efficient fiber optic systems. Could be something as simple as boxes with lines connecting them, or is more detail required in the symbology?

Do you have any examples of previous drawings your company has done that you can sanitize and upload here?
