

How much does it cost to disassemble and re-fiber optic junction boxes

Overview

Typical cost range for a standard fiber optic repair spans from \$1,300 to \$11,000, with most projects in the \$2,500-\$6,000 band. This guide aims to demystify the process of estimating these costs, offering a practical approach to navigate. Buyers typically see repair costs driven by cable type, damage location, and access challenges. The cost to fix a fiber line often hinges on the fault type, distance, and response time, with price ranges reflecting differing crews and materials. Includes crew time for fault locating, splicing, and. I usually bill T&M, but it works out to about \$175-250 for setup/teardown per site and \$4-7 per fiber for prep in a new tray in an existing case and splicing depending on if it's flooded or dry cable. Commercial building installations with 100-200 network drops generally range from \$15,000 to \$30,000.
