

Industrial Switch Technical Services

Overview

ISS are a HV/LV Power Engineering company operating nationwide, undertaking Turnkey Electrical Distribution Projects and Site Service activities, including installation, commissioning, pre-commissioning, final commissioning, HV/LV switching, maintenance, repairs . ISS are a HV/LV Power Engineering company operating nationwide, undertaking Turnkey Electrical Distribution Projects and Site Service activities, including installation, commissioning, pre-commissioning, final commissioning, HV/LV switching, maintenance, repairs . Industrial Switchgear Services Ltd, established in 2000 within the specialist field of High and Low Voltage Power Engineering, offer a variety of solutions for all HV/LV requirements nationwide, providing Total Power Solutions including the following. We boast comprehensive Manufacturing. Any electrical BMS + Power drawing undertaken, to agreed timelines and to Customer specifications. Example CAD Schematic We provide support to our Customers in helping design and interpret each individual electrical panel requirement. Our team of designers are keen to contribute and pride. Since our establishment in 1985, the R&B Switchgear Group has expanded across 3 international regions, developing an impressive portfolio of electrical and mechanical services, whilst working alongside some of the world's largest blue-chip companies. Still family-owned, we're proud of our three generations of expertise and knowledge that have kept the country's buildings warm, light, cool and running since 1972. This can often be an indication of an area of potential costly failure that a Thermography survey can identify, giving. From power panels to industrial automation panels, BIESSE experts are the ideal partner.
