

Jordan RoHS GPON Equipment SFP

Overview

Generic Compatible GPON OLT SFP transceiver provides an asymmetric 2.5 Gbps downstream, reaching a link up to 20 km over SMF via SC connector. It is fully compliant with RoHS standards and is ideal for GPON system and FTTx applications. Ethernet or Passive Optical Network (PON) technologies such as Gigabit PON (GPON) are supported by the Cisco® ME Series Switches. PON modules support fiber-based (FTTx) access scenarios, including Fiber To The Home (FTTH), Fiber To The Building (FTTB), Fiber To The Curb (FTTC), Fiber To The Cell (FTTc), and Fiber To. This supplier mainly exports to Ecuador, Thailand, and the UAE, offering full customization services and boasting a high customer satisfaction rate of 88. The JFOPT GPON OLT C++ + 8 dBm Transceiver represents the highest-grade SFP solution for Optical Line Terminals, delivering peak performance. PLANET GPN-SFP is an SFP GPON ONU device designed in compliance with the ITU-T G. It is a cost-effective GPON customer premises system that provides broadband services with 1244 Mbps upstream and 2488 Mbps downstream by connecting to subscribers' switches or routers. The device. GIGAC's SFP units provide high-performance, hot-swappable fiber optic transceivers for reliable network connectivity. Explore features like Digital Diagnostic Monitoring and compatibility for data centers. Learn about GIGAC's. The RoHS2 Directive, 2011/65/EU, restricts the use of lead and other potentially hazardous substances including Cadmium, Mercury Chromium VI, PBBs and PBDEs contained in electrical and electronic products. RoHS limits these substances to 0.1% or 1,000 ppm (except for cadmium, which is limited to 0.01% or 100 ppm).
