

# Most expensive optical cable model

## Overview

Meta is building something massive — Project Waterworth, a subsea fiber-optic cable stretching 50,000 km across five continents. That's longer than Earth's circumference. and it could cost up to \$10 billion. Scale: 24-fiber-pair capacity, far bigger than most existing cables. Reach: Connecting the. Although more expensive doesn't necessarily equate to a better grade of product, here are four of the most expensive wire products that are built to the highest quality and are guaranteed to bring you joy for years to come. If you're a fan of playing music aloud, you'll probably want to invest in a. So I've been using an optical cable called Argon Audio Classic Optical1 since about 2019/2020. There was recently a great deal of Black Friday deals from the swedish retailer whom owns the brand Argon, Hifiklubben, and they sold AudioQuest Forest optical cable for about 20% of the normal price. 46% annually, choosing from the best fiber optic manufacturers ensures your business infrastructure meets current demands and future scalability requirements. The Nordost Odin 2 speaker cable commands an astronomical €47,000 per meter (approximately \$50,000). To put this in perspective, a.
