

New BESS Energy Storage System from the UAE

Overview

The roughly AED232 billion (US\$5.2 GW) of solar PV with a 19GWh battery energy storage system (BESS), which Masdar claimed was the “largest and most technologically advanced system of its kind in the world.” The project is expected online in 2027. Purpose: Install and commission a BESS at the Cummins Arabia, Al Quoz facility in Dubai, UAE, to enhance energy management, support peak-hour loads and reduce diesel dependency. The launch was attended by key customers, consultants, and partners from across diverse. Cummins Arabia and Cummins Middle East jointly launched Cummins' new Battery Energy Storage Systems (BESS) at an exclusive event held in Dubai on Monday, April 14. In a groundbreaking development witnessed by UAE President His Highness Sheikh Mohamed bin Zayed Al Nahyan, the Abu Dhabi Future Energy Company PJSC – Masdar, in collaboration with Lucio Kroll, Senior Director of New Energy Solutions at Cummins Power Generation, alongside Amit Deshpande, Managing Director of Cummins Arabia, unveiled the product. Cummins Arabia and Cummins Middle.
