

Nordic electrical box guardrail installation manufacturer

Overview

DAV NORDIC handles installation within projects on the roads as well as in connection with noise-reducing solutions and steel for the construction industry. Permanent road equipment for various types of infrastructure. Safety barriers and parapets are guardrails that are full scale tested and CE marked according to EN 1317. Our mission is to contribute to a safer life on the road. For decades DAV NORDIC has provided road safety. We invented the crash barrier back in the day and today we offer a wide variety of traffic safety solutions such as crash barriers, bridge parapets on bridges, traffic barriers and much more. Our modular cabinet systems are engineered for flexibility and scalability perfect for customized solutions across sectors like. We help you with the entire process from product development to on-site installation. We have over 30 years of experience in.
