

Rwanda builds communication towers

Overview

The Minister of ICT and Innovation, Paula Ingabire, has announced that Rwanda needs \$300 million to build additional telecommunications towers to ensure uninterrupted nationwide internet coverage. Ishara Towers Rwanda is driving Rwanda's digital future where connection fuels innovation and opportunity — one tower at a time. Ishara Towers Rwanda is a forward-looking provider of passive telecommunications infrastructure, committed to enabling seamless connectivity across Rwanda and the broader. Rwanda's fast-rising digital economy has received a major boost following the entry of Paradigm Tower Ventures, a new sub-Saharan African infrastructure platform that has completed the acquisition of IHS Rwanda Limited from IHS Holding Limited. The deal, supported by investors Convergence Partners. Kigali — A consortium of Rwandan banks has successfully closed a landmark financing deal under Project Zorro, marking a major step in strengthening the country's telecom infrastructure and digital economy. The transaction supports the acquisition of IHS Rwanda Limited—now rebranded as Ishara Towers. October 09, 2025, London/Kigali: IHS Holding Limited, (NYSE: IHS) (“IHS Towers”), one of the largest independent owners, operators and developers of shared communications infrastructure in the world by tower count, has today announced the completion of the sale of 100% of IHS Rwanda Limited (“IHS. In October 2025, Paradigm Tower Ventures finalised a \$274.
