

# S203 Distribution Box Model and Specifications

## Overview

Download the complete datasheet for ABB S203-D2 to view detailed technical specifications, electrical characteristics, mechanical dimensions, and application information. ics (B,C,D,K,Z), configurations (1P,1P+N,2P,3P,3P+N,4P), breaking capacities (up to 6 kA at 230/400 V AC) and rated currents (up to 63A). All MCBs of the product range S200 comply with IEC/EN 60898-1, IEC/EN 60947-2, UL1077 allowing the use for residential, commercial and industrial applications. This datasheet contains comprehensive information including pin configurations, electrical parameters, timing diagrams, and. Specifications are subject to change without prior notice \*This is ABB Suggested Retail Price of 2026 Color Temp. The S 200-series automatic circuit breakers protect cables and wires against overload and short circuit in accordance with DIN VDE 0100-430 and DIN VDE 0100-530. They have two different tripping mechanisms, the delayed thermal tripping mechanism for overload protection and the electromechanic tripping mechanism for short circuit protection. They are available in different.
