

# Sales of fiber optic cable equipment in the Netherlands

## Overview

The Netherlands fibre optic cable assemblies market is valued at approximately USD 180-210 million in 2026, driven by hyperscale data centre construction, 5G densification, and industrial automation upgrades across the Dutch electronics and technology supply chain. Although Europe's fibre-optic cable manufacturing industry is fairly small on a global scale, it's becoming increasingly important for the continent's digital transformation. Demand for high-speed internet in Europe is on the rise due to the increase in data-intensive services, like streaming. Eurofiber is a key player in the fiber optic telecommunications sector, offering extensive coverage with over 70,500 kilometers of open network across multiple countries. They provide high-quality and reliable fiber-optic connections to over 12,000 locations, supporting the digital transformation. Farnell's fibre optic cables are engineered to provide high-speed, high-bandwidth data transmission over long distances with minimal signal loss.
