

Sales of temporary electrical distribution boxes for construction sites

Overview

Supplying and manufacturing a large range of products from extension leads, adaptor and power distribution boxes, from 16A right through to 2000A, means we can offer the right solution for your unique needs - fast. We're used to working on large projects, indoors and out. Need a power solution for a generator, stage, temporary warehouse, construction site. Like a project we worked on recently for PR Marriott Drilling. They needed new power distribution for drilling in Switzerland and came to us to create a bespoke solution. The product needed to be more robust than their current distribution box, that was made of metal. It had to be fully IP67 rated and had to be raised off the floor to meet strict safety standards. Have a temporary structure you need powering up?

Give our team a shout now on 01752 817 140 or send us a message about your project and one of our sales team members will contact you!.
