

Saudi Arabian Telecom-Grade Router 800G

Overview

The S9620-32E is a high-capacity 32 x 800G router purpose-built for next-generation IP transport networks. In 2024, Juniper Networks raised the bar for network performance and scalability, announcing our first routing solutions to deliver 800G (or double-density 400G) performance. For the most demanding environments, the 800G routing and switching platforms provide. [Riyadh, Saudi Arabia, March 28, 2024] stc Group, the leading operator in the Kingdom of Saudi Arabia, partnered with Huawei to complete the MENA region's first-ever long-haul 800G/channel trial in its live optical network. Leveraging the advanced Qumran3D platform, it delivers exceptional forwarding scale, power efficiency, and feature richness to address the rapidly evolving demands of carrier-grade backbone. Accelerate your data center interconnect with high-performance 800G routing.
