

# Switch 3100 with fiber optic port

## Overview

CISCO IE-3100-4P2S-E Catalyst Ie3100 Rugged Ethernet Switch - 4 Ports - Manageable - Gigabit Ethernet - 10/100/1000base-t, 1000base-x - 2 Layer Supported - 2 Sfp Slots - 20 W Power Consumption - 120 W Poe Budget - Twisted Pair, Optical Fiber - Poe Ports. Condition: New Factory. The 10/100/1000 Ethernet ports on the switches use RJ-45 connectors. The following illustration shows a Lucent Connector (LC) style, fiber-optic cable connector. Do not. The Cisco Catalyst IE3100 Rugged Series delivers mainstream adoption of Gigabit Ethernet connectivity in a compact, fixed form-factor switch that is purpose-built for a wide variety of extended enterprise and industrial applications in the most space constrained scenarios. Availability:. The S3100 switch series has high-performance capabilities and wire-speed performance utilizing a non-blocking architecture to easily handle unexpected traffic loads. Use dual internal hot-swappable 80PLUS-certified power supplies for high availability and power efficiency.

## Article Content

### Cisco Catalyst IE3100 Rugged Series Switches

For 100BASE-FX fiber-optic ports, the cable length from a switch to an attached device cannot exceed 6562 ft (2 km). Ensure that the operating

### Dell Networking S3100 Series

The S3100 switch series has high-performance capabilities and wire-speed performance utilizing a non-blocking architecture to easily handle unexpected traffic loads.

### Cisco Catalyst IE3100 Rugged Series switches

Discover the Cisco Catalyst IE3100 Rugged Series for industrial networking. Durable switches designed for harsh environments and critical infrastructure.

### Cisco Catalyst IE3100 Rugged Series Data Sheet

The Cisco Catalyst™ IE3100 Rugged Series delivers mainstream adoption of Gigabit Ethernet connectivity in a compact, fixed form-factor switch that is purpose-built for a wide variety of extended
